The Talk...

- informs and inspires interest in cultivating a relationship with the Natural World
- builds understanding that in order to implement meaningful sustainable actions over long term, we must know our values and develop Earth-friendly habits of thinking

The Activity

- invites each learner to create a personalized plan of action to deepen their connection with Earth
- reinforces concepts discussed

Teacher Praise:

International School of Geneva, Switzerland

"Laura has her audience on her side and connects with them instantaneously."

"Through her presentation, Laura shared her passion around wellness in nature. Her message is clear and important. She invites us to look at nature differently, such as to respect it as it deserves. Laura's words resonate long after her presentation."

"Her presentation was perfectly pitched for children of 9 years."
